HORTICULTURE

*The Science and
Practice of Gardening*

Division of
University Extension

Tutorial Classes

Spring Session 1965

Foreword

This course in "the science and practice of gardening" has been planned for those would-be gardeners who know "nothing" as well as for those who know a little or even a great deal about a craft that is as old as man. An effort has been made to cover a wide field as clearly and simply as possible in a series of ten lectures. Gardening skills will be demonstrated and garden methods explained.

TIME: Mondays, 8 p.m., beginning January 11

PLACE: UNIVERSITY COLLEGE

FEE: \$15.00

Total fee for a married couple, \$25.00

Single lecture, \$1.75

LECTURER: MISS MINERVA S. CASTLE, F.R.H.S.
